

North Dakota Township Officers Association

URGENT! Legislative Call to Action:

HB 1380, a bill that is critical to future road funding is in peril!

HB 1380, with Senate amendments, would provide added funds for road maintenance going into the future without raising fuel taxes or vehicle registration fees. Beginning in 2023, HB 1380 would take a small part of the interest earned from the Legacy Fund and put it in the Highway Distribution Fund. That fund goes to State Highways, County Highways, Cities, Rural Transit and Township Roads. That is the quarterly mileage payments townships get.

This issue may come to a vote in the House of Representatives as early as 8:00 AM Monday April 19, so time is critical!. Contact your State Representatives now, this weekend, and tell them to CONCUR WITH THE SENATE AMENDMENTS for HB 1380, and then pass the bill.

URGENT! Legislative Call to Action: SECOND ISSUE!

HB 1015 will be amended by the Senate to provide much needed funding for Townships. This will come to a vote a little later in the week but please tell your Representatives to support the Senate Amendments to HB 1015 that fund Township roads!
